

Airline Transport Pilot Certificate

You don't have to want a career in aviation to want an Airline Transport Pilot (ATP) certificate. Pursuing another certificate helps you sharpen your skills and stay on top of a dynamic environment. Think of it as a safety of flight issue...the more you know, the safer you are. And at Executive Flyers Aviation, we're committed to your safety and ongoing training.

Did you know you don't have to be rated in a multi-engine airplane to get your ATP? In fact, you can get it in any instrument certified airplane. All you have to do is demonstrate proficiency within the tolerances of the ATP Practical Test Standards (PTS). Once you've taken the ATP written knowledge test, you don't have to take it again when you decide to add a multi-engine rating to your certificate. Our extensive fleet of airplanes and our knowledgeable staff can help you whatever your decision.

Furthermore, since the checkride is similar to the Instrument checkride, but more stringent, you should consider fine-tuning your instrument skills through our IFR Refresher Training Course. It will put your skills to the test and brush up your knowledge of airplane systems...all in one day.

No matter what your budget, time constraints or career aspirations, Executive Flyers Aviation has the option that's right for you.

EFA Prepay Incentive

You can pay as you fly... or you can earn a bonus for block payments:

- Pay \$500 to \$999, earn 3% bonus
- Pay \$1000 or more, earn 5% bonus

Prepayment bonus is credited to your account and may be used for any EFA instruction, aircraft rental or pilot supply purchases. Not valid for 1 time rentals.

Requirements

- At least 23 years old.
- Hold at least a Commercial Certificate and Instrument Rating
- 1,500 hours total time
 - Cross Country 500
 - Night 100
 - Instrument 75
