

Discovery Flight - only \$79*

Do you dream of flying? Do you look up when you hear an airplane fly overhead and wonder how it would feel to be in the Pilot seat? EFA offers a fun and affordable way to see if pursuing your Private Pilot License is right for you... and this intro flight can be recorded in a training logbook.

You'll meet your EFA Instructor when you enter our flight center, and be given a tour of our facilities and learning resources and have a preflight briefing. Walking to your plane you'll see EFA's dedicated line crew servicing our exceptional fleet of aircraft.

You learn many interesting facts about your aircraft as your instructor coaches you through preflight inspection, run up and taxi to the active runway... but the best feeling will be taking the controls, with your instructor's guidance, applying full throttle and taking off for a 30-minute training flight. Just call to schedule an appointment. It's time satisfy your curiosity and take your place in the Pilot seat.

EFA Discovery Flight

Most people taking this 'sample' introductory flight lesson discover flying is more fun than they dreamed.

Take this opportunity to learn about Private Pilot License training. Ask lots of questions about our FAA approved course syllabus, how we train our professional flight staff and how our Cessna Authorized Service Center maintains our fleet of aircraft.

Flight training is a big commitment of your time and money. Our 40 years of experience, flexible scheduling and payment plans will help you become an aviator... and you'll have the very best time of your life.

***Discovery Flight Cessna 172: \$79**

EFA's 4-seat Cessna 172 Skyhawks are a state of the art flight training platform. Our 2-seat Cessna 152s are also a Discovery Flight option.

Cessna 152: \$59
