

Why EFA is New England's Top Flight Training Center

Executive Flyers Aviation (EFA) is the oldest flight school in New England. After 40 years, we've become one of the nation's largest Cessna Pilot Centers and have trained thousands of pilots. Today, you benefit from an extensive fleet, professional full-time flight instructors, our FAA endorsed training syllabus and flexible scheduling and payment options.

Aspiring Pilots take the aircraft controls on the very first Discovery Flight. Next, your EFA Flight Instructor guides you through Private Pilot Training. We help certified pilots build confidence through Instrument Rating & Unusual Attitude & Aerobatic Courses. Commercial Pilot & Air Transport Ratings are offered for pilots seeking a career in the aviation industry. EFA flight training is one-on-one, at your pace, whether you fly once or twice each week or every day in an accelerated fast track program.

EFA has the best training & rental fleet in New England. You experience the latest IFR-GPS & multi-function display technology. Fly the only "All-Glass" G1000 Cessnas in the area. Have breakfast at your favorite local airport restaurant, fly for a weekend in the islands or pilot an EFA aircraft across the continent.

We are a four-decade family business. The commitment to ensuring our legacy of training excellence is priority one for EFA President and USA National Aerobatic Champion Michael Goulian.

EFA has trained thousands of pilots who fly for fun or for business. Many have made aviation a career in the airlines or armed services. We've even provided initial flight training for two space shuttle astronauts. EFA will help you fulfill your dream of flight.

The EFA Advantage

Easy ways to get started

Discovery Flights let you "sample" a training flight. Complete training kits, prepayment discounts and flexible scheduling put you in the Pilot seat.

Authorized Cessna Pilot Center

Cessna's *interactive* CD ROM training system lets you complete "Ground School" at your pace, on your home computer. Your Instructor reviews your progress during flight visits.

Dedicated Flight Instructors

Our instructors are trained to deliver EFA's 40 years of experience. Work one-on-one with career professionals.

Cessna Authorized Service Hangar

EFA's fleet is maintained to the very highest level of airworthiness by our experienced aviation mechanics.

Aircraft Sales and Leaseback

We help new pilots fulfill their dream of owning an airplane. Finance options include leaseback to EFA's fleet of training and rental aircraft.

Hanscom Field, Bedford, MA

This convenient and popular airport sees an interesting mix of air traffic, preparing pilots for flight to any field.
