

Discovery Flight - \$199

Do you dream of flying? Do you look up when you hear an airplane fly overhead and wonder how it feels to be in the pilot seat? EFA offers a fun and affordable way to explore whether pursuing your Private Pilot Certificate is right for you.

Discovery Flights have been around for quite a while, and provide a means for aspiring pilots to get a first-hand experience in the fun and challenge of actually flying and controlling an aircraft in flight. Many of you have logged lots of time on "Flight Simulator", and already have a good deal of knowledge in the elements that go into a being a pilot, but there is nothing like the real thing!

- The flight will be a true "hands on" experience, letting you actually fly the airplane and understand the use, and feel the effects of the flight controls.
- The flight time and instruction received can be "logged" and credited toward the FAA requirements for a Private Pilot Certificate as lesson #1 in the training curriculum, once you have enrolled in our flight training program.
- All Discovery Flight Lessons will be at a package price of \$199, which will include a one hour flight, the ground briefings, and the preflight inspection associated with traditional flight lessons.

Just call to schedule an appointment. It's time to satisfy your curiosity, and take your place in the Pilot seat. Be sure to ask about our student loan programs if you are interested in financing.

EFA Discovery Flight

Most people taking this 'sample' introductory flight lesson discover flying is more fun than they dreamed.

Take this opportunity to learn about Private Pilot License training. Ask lots of questions about our FAA approved course syllabus (Part 141), how we train our professional flight staff and how our Cessna Authorized Service Center maintains our fleet of aircraft.

Flight training is a big commitment of your time and money. Our 40 years of experience, flexible scheduling and payment plans will help you become an aviator... and you'll have the very best time of your life.

We are open everyday, so call us anytime to schedule your flight. No experience is necessary.

Flight is available for US and Non-US citizens. No pre-registration necessary.

Discovery Flight Cessna 172S: \$199

EFA's 4-seat Cessna 172S Skyhawks are a state of the art flight training platform.
