

Instrument Pilot Certificate

Becoming an Instrument Rated Pilot will enhance your flying skills and extend your flying options. You'll fly more confidently, even in VFR conditions, you'll be safer during those hazy New England marginal VFR flights and you won't be grounded in full IFR conditions.

You'll fly with knowledge gained from EFA's Instrument Pilot Course, taking full advantage of the available resources of ATC and the avionics in our state of the art Cessna Skyhawks and Skylanes. In our Cessnas listed below you'll improve your airmanship and master the advanced avionics systems and multi-function displays. These new aircraft offer redundant vacuum pumps and IFR GPS, providing that extra level of confidence in the clouds. Some are also equipped traffic avoidance and/or datalink weather.

Your CFII has undergone rigorous professional development with EFA to ensure they meet our exacting standards of Instrument Pilot Instruction developed over our 40 years of advanced flight training. Periodic stage checks with our most senior staff offer additional support to make you the most precise and knowledgeable Instrument Rated Pilot in the skies.

EFA Prepay Incentive

You can pay as you fly... or you can earn a bonus for block payments:

- Pay \$500 to \$999, earn 3% bonus
- Pay \$1000 or more, earn 5% bonus

Prepayment bonus is credited to your account and may be used for any EFA instruction, aircraft rental or pilot supply purchases. Not valid for 1 time rentals.

Instrument Pilot Training Costs

	Cessna 172SP		Cessna 182	
	per hour	sub total	per hour	sub total
35 Hours Dual Flight	\$210	\$7350	\$250	\$8750

**6.25% sales tax not included.

Instrument Pilot Flight Kit

You have your Private Pilot Certificate and you've decided to become an Instrument Rated Pilot. You will increase your safety in flight and develop skills for various flying conditions.

The interactive, computer-based Instrument Pilot Instruction Kit from Cessna will help you master the various knowledge components required to become an Instrument Rated pilot: instrument scanning techniques, IFR flight planning, advanced weather review, instrument navigation skills, advanced aircraft system knowledge. You'll watch presentations by top aviation educators, see dramatic, enlightening in-flight footage, take interactive quizzes, learn interesting trivia, and prepare for upcoming lessons before you ever climb into the airplane. Study at your pace on your personal computer and we review your progress during your flight training visits.

EFA also has for sale a number of industry-standard flight instruction books and helpful pilot accessories. Your instructor will introduce you to other helpful training books that are for sale.

EFA has everything you need to advance your flying skills and become an Instrument Rated Pilot. Please inquire about our "Fast Track" Instrument program if you would like an accelerated syllabus.
